FRONTEND DEVELOPMENT

SUMMER CAMP

BEST WAY TO LEARN?

Workshops are efficient than Classrooms programs and Online.

Learning a code through workshop is the most efficient way. It is least time taking, completely practical and very cost efficient. The skill development level is comparatively very high as you are taught the most up to date Technologies used in industry and you get to work on real industry projects.

WHY TO LEARN FROM US?

About your mentor : Simar Singh

- Winner of top website at Corporate Infocom Private Limited
- Worked at Web Development Instructor at CampK12 (a startup by MIT Alumni)

He has a deep knowledge of Frontend development. He has been practicing and teaching to students during his college time. He even got internship and job offers from reputable companies.
